BRIDLEWOOD GOLF CLUB · FLOWER MOUND, TEXAS
Green-reading material conforms to Model Local Rule G-11

NUMBERS AT A REFERENCE POINT

ON THE HOLE PAGE

Red numbers	distance to the front edge of the putting surface
Black numbers	distance from the measuring point on the black tee
(Parentheses)	distance to the centre of the putting surface
Boxed number	arc marking that distance to the front of the green
(A) (B) (C)	run-out points — carry distance from the black tee
Feathered ticks	ground contouring; each tick points downhill
Dark tee box	black tees; the tee table lists every set with its offset

ON THE GREEN PAGE

5 × 5 grid	divides the putting surface into fifths both ways
Grey contours	6-inch contour interval on the putting surface
Arrows	slope of 4% or more, pointing downhill
Scale	never larger than 3/8 inch to 5 yards, the G-11 maximum
Depth scale	yards from the front edge along the line of play

HOW THIS PAGE WAS BUILT

Hole, green, bunker and water outlines	OpenStreetMap (ODbL)
Terrain, elevations and green contours	USGS 3DEP 1 m lidar
Mown envelope and tree canopy	USDA NAIP 4-band imagery
Hole yardage and par	published Bridlewood scorecard

No part of this page is surveyed on the ground. Distances are computed from mapped geometry; green contours are derived from airborne lidar and are not a substitute for a ground survey. Sprinkler-head references are not available, so reference points are stations along the line of play.

NOT IN THIS EDITION

Sprinkler-head numbers	no public source; would need a walk of the hole
Fairway / rough mowing line	the NAIP capture is drought-dormant, no mowing contrast
Black tee box	absent from OpenStreetMap; the tee table uses scorecard yardages
Hole photograph	no licensed ground-level image of the hole
